## MOSQUITO CONTROL PROGRAM – KANATA NORTH

Weekly report – August 3<sup>rd</sup> to August 9<sup>th</sup>, 2025

### *MONITORING and WEATHER*

---

**Accumulation of water:** Between 3 and 10 mm.

Date of precipitation: August 8<sup>th</sup>.

**Is there presence of larvae on the field?:** Yes ☐ No ☒

**Note:** The territory is experiencing a prolonged dry spell with no significant precipitation. This has led to the advanced drying of larval habitats and semi-permanent breeding sites, in addition to low water levels in several permanent habitats.

### *TREATMENT*

---

**Was there a treatment?:** Yes ☐ No ☒

**Type of treatment:** Ground ☐ Aerial ☐

**Date of treatment:** N/A.

## POST TREATMENT

Was there a post-treatment? : Yes ☐ No ☒

Larval Mortality: N/A.

Is there another treatment to be done?: Yes ☐ No ☒

## SWEEP TEST

Were there sweep tests this week? : Yes ☒ No ☐

Sweep tests were conducted on August 4<sup>th</sup>.

Time	Address - Protected area	Mosquito	Black flies	Other species	Unprotected area	Mosquito	Black flies	Other species	% Efficacy (Mosquito)
18:44	124 marsh sparrow	0	2	3	Out average	0,5	0	4,5	100,0%
19:28	2600 Campeau Dr.	0	2	0					100,0%

## TRAPPING

Was there trapping this week? : Yes ☒ No ☐

Number of traps: 3

Location:

- Ernest Smith Park
- Beaver Pond Park
- Marsh Sparrow Pvt

Kanata nuisance mosquito control GDG 2025

## *CITIZEN REQUESTS*

---

**Were there any key requests from citizen or from city this week?** Yes ☒ No ☐

Two new requests from citizens this week:

1 – In response to a request concerning a high number of black flies at Jim Malone Park, we have arranged to send captured specimens to our laboratory for analysis during our upcoming nuisance tests. This will allow us to assess whether the flies are of a biting species or not. The results will be shared as soon as they are available. Please note that our program in Kanata North is focused exclusively on mosquito control and does not include black flies.

2- We have also received an inquiry about a storm drain, which has been forwarded to our VNO department. They, in turn, sent the request to the City of Ottawa for resolution.

## *FORECAST*

---

**Forecast for next week (August 10<sup>th</sup> to August 16<sup>th</sup>):**

Still no significant rain forecast this week, we are maintaining our continuous monitoring of the situation and our regular inspections of mosquito larvae breeding sites.

**Possible treatment:** Yes ☐ No ☒

If yes:

**Type of treatment:** Ground ☐ Aerial ☐

**Date of planned treatment:** N/A
